Managing Director – Thorlux Lighting

ORGANISATION STRUCTURE

Thorlux Lighting designs, manufactures and supplies professional lighting systems in the building and construction sector. It is part of FW Thorpe PLC which consists of a number of lighting companies specialising on specific sectors of the lighting market. The Group has a global annual turnover of approximately £100 Million and there are 600 employees. Thorlux is predominantly based in the UK but has a number of sales offices worldwide. At the UK site in Redditch, over 300 people are employed with a turnover of £70 Million.

OUR BUSINESS

The business has a large production facility supported by various departments: Finance, Purchasing and Materials, Human Resources, Quality, Lighting Design, Design and Technical Engineering, Commissioning. We have robust procedures in place for the vetting of new employees and ensuring that we are able to confirm their identities.

OUR SUPPLY CHAINS

The Thorlux supply chain comprises approximately 100 mainline product suppliers. These companies are based throughout the world and vary considerably both in terms of size and amount spent with them. All our product suppliers are subject to an approvals process before they are permitted to supply products. Many hold international quality standards and accreditations and are regularly audited both by the issuing authorities and ourselves to ensure ongoing compliance to quality standards and other regulatory requirements. In addition, we have approximately 500 non-product suppliers, who are predominantly based in the UK. These suppliers are subject to the same due diligence processes as for the product suppliers.

OUR POLICIES ON SLAVERY AND HUMAN TRAFFICKING

We are committed to ensuring that there is no modern slavery or human trafficking in our supply chains or in any part of our business. We will develop an Anti-slavery Policy that reflects our commitment to acting ethically and with integrity in all our business relationships. We will implement and audit effective systems and controls.

DUE DILIGENCE PROCESSES FOR SLAVERY AND HUMAN TRAFFICKING

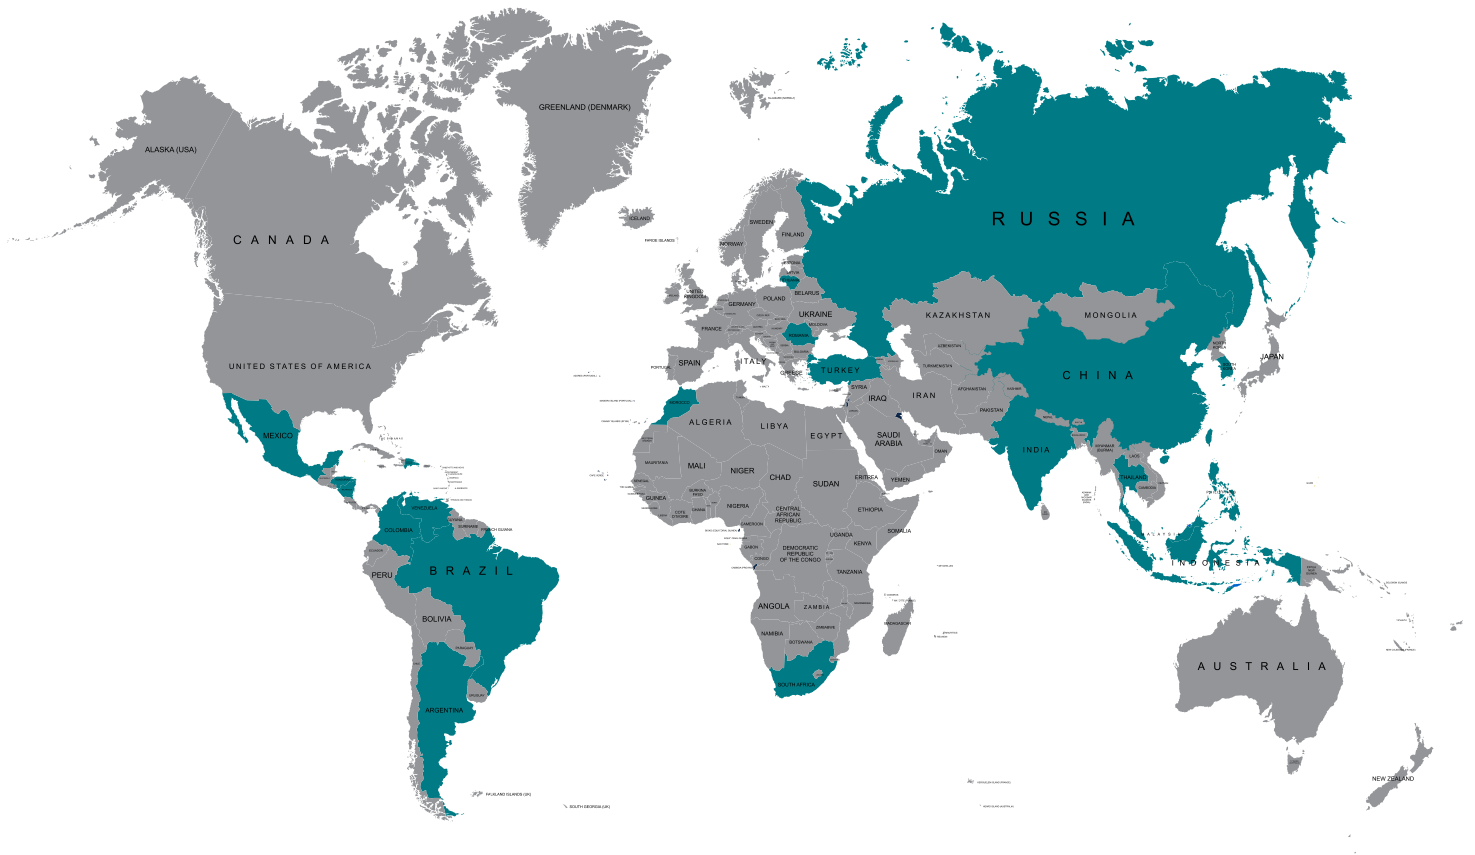

Slavery and forced labour can take many forms, including human trafficking or child labour. The Thorlux Supplier Code of Conduct (available at www.thorlux.com/supplier-code-of-conduct) clearly states that we will not tolerate forced labour or child labour in our operations or in the supply chain. Thorlux Lighting will not continue to purchase goods or services from any supplier that is found to be engaging in human trafficking or using slave labour.

Our processes include actions to safeguard against human rights abuses in our supply chain, including;

- building long standing relationships, where possible, with local suppliers and making clear our expectations of business behaviour.
- mitigating risk by encouraging sourcing from UK, European or U.S suppliers as we expect these entities to have suitable anti-slavery and human trafficking policies and processes.
- maintaining contact with a UK/European company or branch, where the supplier is outside the geographical locations stated above, as we would expect them to adopt due diligence on the next link in the chain. For these suppliers a periodic audit of their premises will be conducted to observe their operations, make clear our expectations of behaviour and ensure compliance with slavery and human trafficking laws.
- assessing the risk of any additional suppliers based on geographical location. This risk assessment is performed with input from external stakeholders, such as the United Nations. Any higher risk suppliers will be asked to sign our Supplier Code of Conduct document confirming that they, and their supply chains, conform to our Slavery and Human Trafficking policy. A periodic audit of their premises will be conducted to ensure compliance with slavery and human trafficking laws. (see fig.1)
- encouraging the reporting of concerns and safeguard whistle blowers
